

I listen to K-LOVE radio every day (94.3 FM) Because I am a Christian, it is important to me to hear uplifting music and encouragements during my day. I also find out about local events and activities that are available at no charge. I am involved in a group that serves orphans and our announcement on K-LOVE resulted in a great response. They make time for these local announcements, even though they broadcast from California. Because this information is very important to me, I support K-LOVE financially to insure that I will continue getting this local information. I do not believe that changing to LPFM will serve my local community as effectively. I am only one person of hundreds of thousands of people across the country and the world that benefit by the FM translators, and get a wholesome and positive message 24 hours a day. Thank you.
